I just wanted to take a moment to say thank you so much for being involved in the triathlon. You were such a treat to work with, easy to communicate with, and overall just a pleasure to have around. I glimpsed briefly through all the photos on the website last night and they are amazing. You certainly captured the gist of the event on a larger scale, but on a more meaningful note you captured some very up-close and special moments between children and their buddies and families, and THAT is really what I was looking for. More formal thank yous to come soon. -- Kelley

Dear Ms. Rice - I am writing to ask permission to use two of your images [from the Shaker Village of Pleasant Hill] as subjects for watercolor. I will clearly state on the back of my work that it is inspired by your photography. -- Marcheta

Very peaceful thoughts. Thank you, as I look out my son's brand new Brooklyn apt with large picture windows. We now sip wine after unpacking boxes all day and I read your thoughts. Cloudless sky but that too is peaceful as the sky is clear and there is the beginning of a sunset. Thank you for thinking of clouds as calming. It helps with all that's going on. -- Holly
